RE: WT 11-65

Dear Chairman Genachowski:

We at the Illinois Hispanic Chamber of Commerce (IHCC) believe this merger will provide great benefit to Hispanic business owners in our community.

Emerging minority owned businesses necessitate broadband access to fully pursue the business opportunities available to them. By combining, T-Mobile USA and AT&T will help them to do just that. Expanding its 4G Long Term Evolution network means AT&T can offer mobile broadband coverage for a total of 97 percent of Americans. This expansion is good news for the Hispanic business community.

Equally exciting is AT&T's \$8 billion investment to make coverage of this magnitude possible. Investing that much money will boost business communities across the country, allowing Hispanic families and businesses to achieve financial success, providing benefit for the entire community.

I ask that you please weigh the benefits of this transaction for Illinois Hispanic businesses and business communities all over the country as you consider this merger application. I appreciate your consideration and look forward to your decision.

Sincerely,

President/CEO
Illinois Hispanic Chamber of Commerce

CC: Commissioner Michael Copps
Commissioner Robert McDowell
Commissioner Mignon Clyburn
Commissioner Meredith Attwell Baker
